Chennimalai, Erode, Tamil Nadu

### SUMMARY

- Junior Software Engineer with **1.9 years of experience** in full stack and backend development, specializing in scalable applications and microservices.
- Proficient in Javascript, Node.js, Nest.js, React.js, and MongoDB, with experience building e-commerce platforms, REST APIs, and responsive UIs.
- Skilled in AI-assisted development for code generation, debugging, and rapid prototyping, with strong knowledge of prompt engineering.
- Strong in debugging, performance optimization, and Agile workflows using Git, Jira, and Postman.

### KEY COMPETENCIES

- REST API development
- API integration
- Backend development (Node.js, NestJS)
- Frontend development (React.js)
- Git and GitHub (version control)
- Debugging and optimization
- E-commerce development (Magento)
- Microservices basics
- Cross-functional collaboration

### TECHNICAL SKILLS

- Architecture: Microservices, RabbitMQ, Event-driven systems
- Frontend: React.js, Tailwind CSS, JavaScript
- Backend: Node.js, NestJS, REST APIs, GraphQL
- Database: MongoDB, MySQL
- Tools: Git, Postman, Jira
- AI-assisted development, prompt engineering, code generation, debugging, testing, rapid prototyping

### WORK EXPERIENCE

**Junior Software Engineer (Full Stack)** June 2025 – Present

**Smedge Technologies**

- **Injex Program Project** - Developed responsive and user-friendly interfaces using HTML, CSS, Tailwind CSS, and React.js
- Built backend services using Nest.js and MongoDB, following microservices architecture principles Designed and implemented RESTful APIs for efficient data communication
- Tested and validated APIs using Postman to ensure reliability

## **Junior Software Engineer** July 2024 – Jun 2025

### **Pheonix Solutions**

#### **Medi Therapie – Magento Applications**

- Collaborated on a Magento project, expanding my expertise in e-commerce solutions.
- Managed project setup, admin panel, and custom changes.

#### **Magneri-Web – PHP | API**

- Worked on an existing codebase to separate the frontend, backend, and API.
- Currently focused on frontend development flow.

#### **Billing Application – MERN Stack**

- Working on Taxary, a company-owned product for buying and selling products with multiple modules.
- Contributed to quotation, invoice, and payment modules and Developed APIs, payment integration, and UI using MongoDB, React, GraphQL, Node.js.

---

## **Junior Software Engineer (Backend)** Jan 2024 – Apr 2024

### **Future Vineto AI Technology**

- Worked on backend development using Node.js and SQL (phpMyAdmin) to support application functionality and data management.
- Contributed to the 'MyAIProfile' project by adding and managing job-related data.
- Strengthened problem-solving skills by addressing technical challenges and debugging issues during development.

---

## **CERTIFICATIONS**

- Achieved a certification in MERN Stack Developer Course – IDM Tech Park.
- Completed a Both Junior and Senior English Typewriting exam and got a Distinction level Certificate.
- Tata Consultancy Services (TCS) NQT – Cognitive Authority by TCS NQT ID – 22071431636. Achieved a certification in TCS NQT – Cognitive with a 69% score.

## **CO-CURRICULAR ACTIVITIES**

- Authored a blog on PheonixSolutions about web development.
- Conducted a session on JavaScript to share expertise.
- Currently reading Good Vibes, Good Life for self-improvement.
- Actively interested in both indoor and outdoor sports.
