Chennimalai, Erode, Tamil Nadu

SUMMARY

- Junior Software Engineer with **2+ years of experience** in full stack and backend development, specializing in scalable applications and microservices.
- Proficient in Javascript, Node.js, Nest.js, React.js, and MongoDB, with experience building e-commerce platforms, REST APIs, and responsive UIs.
- Skilled in AI-assisted development for code generation, debugging, rapid prototyping, and workflow automation, with strong knowledge of prompt engineering.
- Strong in debugging, performance optimization, and Agile workflows using Git, Jira, and Postman.

EDUCATION

2020–2023 (B.Sc. CS)

Bachelor of Computer Science

Vellalar College For Women - Erode

TECHNICAL SKILLS

- Architecture: Microservices, RabbitMQ, Event-driven Systems, RBAC
- Frontend: React.js, TypeScript, JavaScript ES6+, Tailwind CSS, Responsive Web Design
- Backend: Node.js, NestJS, REST APIs
- Database: MongoDB, MongoDB Atlas, MySQL
- DevOps & Deployment: Nginx, PM2, VPS Deployment
- Tools: Git, Postman, Jira, Agile Development

KEY COMPETENCIES

- REST API development
- API integration
- Backend development (Node.js, NestJS)
- Frontend development (React.js)
- Git, GitLab, GitHub (version control)
- Debugging and optimization
- E-commerce development (Magento)
- Microservices Architecture (RabbitMQ)
- Cross-functional collaboration

WORK EXPERIENCE

Junior Software Engineer (Full Stack) June 2025 – Jun 2026

Injex Knowledge Private Limited

- Developed a scalable SaaS-based LMS with RBAC supporting App Admin, College Admin, Tutor, and Student portals, including end-to-end Student Portal with dashboards, assignments, certifications, and progress tracking.

- Built hierarchical Program → Course → Module → Chapter → Lesson workflows with structured content delivery, completion tracking, and guided learning progression.
 - Implemented course management, student onboarding (single & bulk Excel imports), grading, and rubric workflows with validation handling across admin modules.
 - Integrated PDF Flipbook, Bunny.net video streaming, RabbitMQ microservices, and REST APIs for asynchronous data exchange across platform modules.
 - Managed production deployment on Hostinger VPS with Nginx reverse proxy, SSL, PM2 process management, and MongoDB Atlas cloud database setup.
-

Junior Software Engineer July 2024 – Jun 2025

Pheonix Solutions

Medi Therapie – Magento Applications

- Collaborated on a Magento project, expanding my expertise in e-commerce solutions.
- Managed project setup, admin panel, and custom changes.

Magneri-Web – PHP | API

- Worked on an existing codebase to separate the frontend, backend, and API.
- Currently focused on frontend development flow.

Billing Application – MERN Stack

- Working on Taxary, a company-owned product for buying and selling products with multiple modules.
 - Contributed to quotation, invoice, and payment modules and Developed APIs, payment integration, and UI using MongoDB, React, GraphQL, Node.js.
-

Junior Software Engineer (Backend) Jan 2024 – Apr 2024

Future Vineto AI Technology

- Worked on backend development using Node.js and SQL (phpMyAdmin) to support application functionality and data management.
 - Contributed to the 'MyAIProfile' project by adding and managing job-related data.
 - Strengthened problem-solving skills by addressing technical challenges and debugging issues during development.
-

CERTIFICATIONS

- Achieved a certification in MERN Stack Developer Course – IDM Tech Park.
- Completed a Both Junior & Senior English Typewriting exam and got a Distinction level Certificate.
- TCS NQT – Cognitive Certification | Scored 69%
